

RAMACHANDRAN RAJEEVALETSNANTH

SOFTWARE ENGINEER

ABOUT ME

I am a skilled software engineer with 2 years of experience in React, Node.js, and AWS cloud computing. Proficient in building robust web applications using these technologies, I have a strong understanding of frontend and backend development. I also have expertise in deploying applications on AWS, utilizing services such as EC2, S3, and Lambda. With a passion for innovative solutions and problem-solving, I am eager to contribute my skills to drive impactful projects.
